PROFILE

Hey there! I'm a BTech student with a heart for teaching and a mind for tech. I love diving into projects that make a difference, whether it's in the classroom or through innovative software solutions. And when I'm not coding or inspiring young minds, you'll find me on my motorcycle, exploring the open road.

WORK EXPERIENCE

Institute of Social Work, Kolkata   2022 - 2024
Computer Associate

Institute of Social Work, Kolkata
Educator

PROJECTS

Measuring Distance with Arduino Sensor and LEDs

- Developed an Arduino-based distance measurement system utilizing an LED to provide real-time, accurate distance readings.
- The project effectively demonstrates practical applications of sensor technology and Arduino programming

Hand gesture LED Control

- Developed an Arduino-based distance measurement system utilizing an LED to provide real-time, accurate distance readings.
- The project effectively demonstrates practical applications of sensor technology and Arduino programming

Timetable Maestro

- Developed a web-based application using HTML, CSS, and JavaScript to generate personalized timetables. Schedule Optimizer efficiently creates schedules based on user-defined preferences, ensuring optimal time management and conflict avoidance.
